ILLUSORR Jobs – Digital Designer

POSITION

Digital Designer

OVERVIEW

ILLUSORR is the world's first meta-architecture and technology company, creating for a design-oriented metaverse. Based in Canada, we are a small startup company with a global team of experts located in 8 different countries, across 4 continents, dedicated to executing the best quality projects. ILLUSORR has worked with clients from BMW to ABB, offering our services to brands that are interested in getting into the metaverse before it is too late. The metaverse will transform human civilization forever, and ILLUSORR is offering brands the opportunity to be early in this transition by building their own metaverse experience for their customers.

Join us in building for the design-oriented metaverse. An environment where design and human experience are the focus. We work with many different clients on commercial projects, like creating mini-metaverses, spaces, digital assets, and hosting events for them. We also engage with customers on some of the products and services we offer like selling NFTs, fun and interesting events, and educational platforms. We are looking for someone passionate and motivated to join the team and work with us in delivering these experiences at the highest level.

If you are driven, hardworking, future-thinking, and want to change the world then this is the place for you. You will join a team of likeminded individuals, from design and tech backgrounds, who equally want to revolutionise the future of humanity through this project. We work fast, we work hard, and we like to have fun while doing so, even remotely! We are still a relatively small team, but we are growing very fast, and would like people who bring new kinds of experience and skills to the table. We are on a road to changing the future of human society through design, if this sounds like a journey for you, hop onboard!

JOB DESCRIPTION

We are looking for a Digital Designer with creative mind and a unique approach to creation and visualization. You will have to bring your imagination and originality into every project and create content and media to capture a wide audience, both commercial clients, and end users. You should also be competent in representing the brand identity and approach catered to Web3 and the metaverse. A grand vision but also detail oriented to execute very high quality content. You will be expected to use relevant modelling and visualization software like Cinema4D, 3Ds Max, Blender, ZBrush, or similar. You should already have experience in digital design, commercial projects, and working with art directors and a team of copywriters and designers. This role will include 2D Media, 3D Media, and animations, the ability to create and visualize animated, vivid scenery of virtual and metaverse environments.

REQUIREMENTS

Cinema4D

3Ds Max

Blender

ZBrush

PLUS (NOT REQUIRED)

- Would be great if you have shipped VR project and/or shipped AAA game/s
- It's great to have someone with experience with WebXR
- Bachelors/Masters in Architecture, Computational Design, or equivalent
- Experience with MMO games, blockchain, NFTs, cryptocurrency
- Experience with asset management systems, asset bundles (DLCs etc)

REMOTE JOB

FULL TIME

TO APPLY

Please email info@illusorr.com with your CV, portfolio and cover letter explaining why you are the best candidate for the Digital Designer position.

We are looking for a highly skilled Digital Designer to join the team who is great at communicating, collaboration, teamwork, and who is also self-motivated. This position is for a gaming, tech, and design enthusiast, and is full time, and fully remote (most of the team are remote).
